APC Data Analytics, LLC Lands First Contract

December 1, 2017 – APC Data Analytics, LLC is pleased to announce the award of their first contract with the Keller Williams Realty Mount Pleasant office. “We are so excited to be partnering with Keller Williams Realty along with their agents to help their clients buy and sell more homes in less time using accurate, powerful and current valuations”, said Anton Roeger IV, President and CEO. “This is the culmination of a lot of hard work by my team. They have put in a lot of hours in the past six months so we are ready to transform how houses are valued and sold. I am really proud of my team and look forward to a long partnership with this Keller Williams Realty office along with expanding our network.”

About APC Data Analytics, LLC

APC Data Analytics, LLC is a consulting and technology services firm specializing in big data analytics, data warehousing, business intelligence, and predictive analytics for complex decisions. We create specialized software systems to identify, examine and interpret data sets to discover meaningful conclusions about the information they contain. With APC Data Analytics, the highest level of accuracy is possible while collecting data directly from the most reliable local, state, and national sources to compute solutions using unparalleled algorithms. APC was created to enable licensed real estate agents to accurately estimate the market value of a specific subject property in an interactive, visual and user-friendly way. This value is computed by analyzing data derived from the comparable sold properties in relation to the subject property by using Accurate, Powerful and Current calculations. The analyzed data includes pertinent information gathered for the highest level of accuracy to create a comparative assessment. The product results in a clear and concise graph so that the produced information is visual and easy to understand.

APC Data Analytics, LLC is headquartered in Charleston, SC and is socially conscious and an equal opportunity employer. For additional information about APC Data Analytics, LLC, please visit www.apcdata.net or contact Jamie Derrickson at 843.834.3418 or jamie@apcdata.net.
