### ***Amy Potts of APC Data Analytics, LLC is promoted to Director of Operations***

JAN 16, 2019 - With the tremendous growth of the company and rapidly increasing demands, APC Data Analytics promotes Amy Potts of Mount Pleasant, SC to Director of Operations.

Amy was first hired in 2018 as a business consultant. The partners, Anton Roeger IV, Jamie Lee Derrickson, and Noah T. Leask, quickly realized her great potential and hired Amy full-time, filling the role as the company's Operations Specialist.

Amy is "the glue that holds us together", according to Anton Roeger IV, CEO.

Ms. Potts is an accomplished Office Manager with over 15 years of experience working with small businesses and start-up companies leading the development and implementation of systems and strategies. She has an entrepreneurial spirit and is passionate about what she does, always playing an active role in the success of every company in which she has been involved. With a Bachelor's Degree in Business Management and a concentration in Marketing, Amy excels in all aspects of business. Always ensuring a smooth operation of day-to-day business activities makes her versatile and a valuable asset to APC Data Analytics.

#### **About APC Data Analytics, LLC**

APC Data Analytics, LLC is a consulting and technology services firm specializing in big data analytics, data warehousing, business intelligence, and predictive analytics for complex decisions. We also create specialized software systems to identify, examine and interpret data sets to discover meaningful conclusions about the information they contain. With APC Data Analytics, the highest level of accuracy and range of capability is possible because we collect the data directly from the most reliable local, state, and national sources to allow clients to create custom real estate software.

APC Data Analytics, LLC is headquartered in Charleston, SC and is socially conscious and an equal opportunity employer.
